A few flea power amp / high efficiency speaker enthusiasts are getting together at my house in NW Houston on Saturday August 14 from noon 'till to listen to some speakers. The ones I know we will have to listen to are: A 95dB Linus 2 line array, a 96dB diy line array, 95 dB Fostex Fe166E Voigt pipes, a 92dB Eros MKII built from plans on the speakerbuilder net (not exactly high efficiency but they sound really good with a 300B amp), and 97dB Hammer Dynamics 12's with Fostex horn supertweeters.Everyone who can make it is invited along with any high efficiency speakers they can bring. I'll provide the ice cold beer, soft drinks, snacks, etc. Wives and girlfriends are invited too. Email me at fredaudio@houston.rr.com for directions.Pictures of some of the speakers we will hear are at http://fredt300b.smugmug.com/gallery/174313
