I'm glad Tim and Ron spoke up and told us what's inside. I have not had the backs off yet. I've only seen Tim's picts of the inside and they are perfect. Oddly enough, I still like the look of the A7 VOTT cabinet. Those are them in back of my truck when I was picking them up from Ron's (Spkrmn57) house. Please note Ron's garage. Let's just say it doesn't end there.Right now I'm driving with a PP EL34 integrated (Cayin TA-30) and I'm pretty happy with it.....Colin
