I agree with you about that, robert. I like my horns too, because they sound most like live music, in that they convey much more detail than other designs. I have to admit, I have never heard a single driver in a properly set up BLH before, so I am waiting for that. Maybe some day....sigh..I've heard single drivers in Brs, of course, in double BRs, and in MLTL,s but never in a good horn for example a lowther in a medallion, etc). I am curious to hear that...maybe at the next GPAF.....-akhilesh
