I just watched these pix, no, photographs that Dave took and I'm blown away. How did you have time with helping everyone and working both Audio Note rooms? And doing all that computer stuff?I bought a new 8 megapixel Canon with what I thought was a pretty good flash just for this show. My pix turned out decent but then I discovered that to e-mail them to Constantine I had to reduce the file size down to what my 5 year old 1 meg camera took. Who knew an 8 megapixel pic was a 4 megabyte file? LOL!If I was paid to review I'd surely pay Dave for his photos.Thanks for all you did to help make the show a success, Dave.
