Has anyone heard both of these amps--SE84C + SEX. I was just curious as to how they compare?Any recommendations for a first SET amp--one that could maybe be a last SET amp?Just wondering if anyone could help since I've never heard a SET. I'm going to buy a set of Fostex to go with it.Thanks in advance.P.S. I'm going to Tokyo next week--is there any amps I should check out there?
