Douglas,I checkesd several web sites.Antique Electronic supply has them for $9.60 ea.Tube Depot for $13.95 ea.Fair Radio Sales in Lima has them for $7.00 ea.None of these listed any quantities on hand.I like the idea of it being directly heated. Been interested since I saw Gary Pimm's 47 amp. If we used your E-Linear topology, what are we looking at as possable drivers?Keep it com'in...Joe
