Hello to all in thís forum,I need some recommendations!Last days we were shopping in COLOGNE!Near X-mas we had to go to a big town and look for all the things we need for a pretty christmas with family and friends!My wife found a lot of things..., but from one to the other moment it was my "shopping day",...a local speakerstore made a tentsale!After a short discussion with my lovely wife and remembering this nice forum following things were in my basket:2 x EMINENCE MAGNUM 18 HO2 X EMINENCE KAPPA PRO 10 (DELTA 10...sold out!)2 x EMINENCE H 2902 x P.AUDIO BMD440 1" DriverTotal cash price: 500 EUROS ~ 620 U.S.DollarI think that`s o.k.!!!But now my request:How to build a speaker-system with this components?The speakers have to stay in corners! (Room is 22 x 11 feets)BUT...7PI/18`s are not possible....to big!!!(...for my lovely wife!)Does the KAPPA PRO 10 work in WAYNE`S Midhorn?My idea:Bass ~ MAGNUM 18HO 3`- 4` bassreflexMid ~ KAPPA PRO 10 in a little closed chamber (...or Wayne`s midhorn?)High ~ H 290 with driver BMD440The basic should be Wayne`s 7PI X-OVER!Any idea else?Thanks for help to all in the forum!KarlP.S. Sorry for my poor English!
