Lancelot wrote on Fri, 17 December 2010 06:34I agree with you. I like to have a projector but my problem is at daytime. I need a room that is dark enough for the projector to show the movie like inside the theaters. Any suggestions on how I can do this?

Most big box stores sell blackout curtains. But they aren't what I would call cheap. They are heavy and usually black, so you might have to install new curtain rods.
