Our next meeting is Saturday, October 8th, 7:00-10:00 PM at a member's home. This is our first ever evening meeting, and participants are invited to bring their significant other, and a bottle of wine if you would like. The meeting topic is "The Room". Our host, who is an architect by profession, will discuss and show his newly built audio room and demonstrate his vinyl setup.

I visited the house during construction, and the room is spectacular, with a curved wood barrel-vaulted ceiling. Visitors are always welcome at our meetings. See our yahoo group page for meeting information and directions: http://launch.groups.yahoo.com/group/houstonaudio/
