Subject: FS: 16 Dayton PT2 planar tweeters (Iowa)

I bought these used a couple of years ago, in hopes of building a line array. They were used by the previous owner in an array, they're in the original boxes. They're in great shape, and look new. The previous owner did solder to the tabs.

I doubt I'll ever get around to using them in arrays, so I'm trying to sell them for what I have in them. I'd like to see them go in a set of 16, to prevent a lot of shipments.

$250 for all 16, plus shipping costs from 52314 - local pickup is also available. This is less than half of new costs (even in quantity). I hope someone can get some good use out of them!
