Hi,Speaking for ART. This subject usually ends up with some bad feelings and deleted post in any of the audio related forums here.We have two forums here which are the "Tower" and the "Dungeon"These two forums are not moderated and a much better place to chat over this kind of topic. I'm just pointing out how this "usually goes" !Bill

or if you agree nearly completely with the Hidden Agenda and the party line. People get expelled for NOT breaking the rules, with NO notification. This is the norm. Name--if you can--any other

organization that performs or operates in this way. You cannot find one, I'd guess.L.A.

in not knowing the various forums (forae?) at this site. I *wanted* to contact the webmaster/owner him/herself and ask about the appropriateness/propriety of the nature of this post, but I could not find any way to do so. If the owner is reading this, please understand my efforts to do so [I looked and looked for a 'contact number' and found none].P.S.: who is ART?L.A.

AudioRoundTable.com has a lot of real friendly people that are usually pretty generous with their replies and giving a helping hand. If you should ever need to contact the webmaster directly, there is a link on the main page at the lower right corner that says, "To learn how you can become more involved, click here." You'll find a direct link to the webmaster there.
