These have been great speakers, but I'm ready to try some other designs at this point and need to move these along to finance new projects.

I'm asking $550 for the pair, local pickup (Amarillo). Shipping is not an option as these are tall. They will be set up for audition so you can give them a listen, even though my system is lacking a bit.

If you want to see what they are all about, here is the link:
More info on ART arrays

Here are some pics for you to look at. The cabinets were built by FredT (AudioFred - the original designer) and stuffed by me. They are in excellent shape as are the drivers. The crossover board can be switched between 1st order and 2nd order on the board. More or better pics on request.

My ART arrays

Hello,

New to the forum but not to audio! Are these arrays still available? Could they possibly come to LSAF by chance?

Thanks,
John Poole
McKinney, TX

They are still available, but unfortunately I won't be making it to Dallas this year due to fundage issues, otherwise I'd love to bring them for you to listen to.

Ain't that a hoot. Need to sell the speakers, but don't have the cash to take them for an audition.....

Totally understandable. I may have to take a trip. My daughter lives in Clovis so maybe I can head NW instead of just west!

John
