Hi Wayne; Them badges are some kinda nice. Now I have to embark on a new set of speaks to do them justice. I have to confess; building the original Pi Theater 4's, I had no idea what they would sound like, therefor I stupidly refused to put goodly amount of effort into cosmetics; bad move. The next set will be worthy of those emblems. Thanks Old Man, J.R.

Glad you got 'em John. Thanks for the review and for all you've done around here as well.
