I just got the Spotify app for my Android phone. I really like it a lot! I thought Pandora was good and that I really wouldn't need Spotify, but Spotify is a totally different experience! You can listen to whole CD's of your favorite groups! Very cool! Of course, I still love Pandora, too!

I haven't gotten Spotify yet. I didn't know that you could get it for the phone. I do have it linked to my Facebook online. I don't really know if I like everyone seeing what I am listening to, but, oh, well.
