Has anyone gone to the movie theater to see the new "Ghostbusters" movie yet? My husband is taking my daughter later today to see it because her favorite band redid the theme song for it. I just hope that she enjoys the rest of the movie.

I heard that the release date was July 15th so I am waiting for the hype and excitement to die so that I can think of going to watch it. How old is your daughter and isn't she afraid of such movies?

I just checked today and the cinemas are still screening it. There is so much hype around this movie so I am definitely going to spare time and go watch it alongside my daughter.

Nah.....that type of movie is not for me anymore. When the original first came out, when Bill Murray still had hair, I loved it.

Not going to see it as too much of the concept has changed to suit my liking. I'll live with my pleasant memories of Ghostbusters without them being muddled.
