Subject: Need Cartridge or Needle for Miracord 50H

I have a Miracord 50H with a Shure V15 Type II cartridge. During a move, the needle got bent. I am looking for a replacement needle or cartridge. Will a Shure M97xE fit? If so, is it a reasonable replacement for a reasonable price? I'm not looking for a very expensive solution if a reasonably priced one will do the job. If it sounds anything like the Shure V15 did, I will be happy with it.Thanks for your help.David

I'd give the guys at NeedleDoctor.com a call. They can probably fix you up. Check out the replacement charts they have available online too.
