Subject: What to do with Ward Airline Radio/Phono Combo

I have been cleaning out the garage of my house and I have a Montgomery Ward Airline Radio/Phono combo, Model 62-2745. I know next to nothing about this stuff and I'm trying to figure out what to do with it. It looks like it is in fair shape overall but probably needs someone who knows what their doing to get it in working condition. Where can I go to find out more about this particular model, maybe someone who wants it, or if it is even worth trying to save.

Stuff like that is fun for nostalgia, but they don't generally fetch big dollar amounts when sold. There are a few collectables, but most are not worth much money. They're interesting though!

I just picked up a Wards Airline 62.2714 radio / phono combination and am hoping to restore it, would you happen to have any info such as schematic on your unit since they probably are similar?
