I first saw these in Fine Woodworking mag. The local woodcrafters has them at full retail of $25/ea. They are for a solo worker to hold pieces together for edge fastening and glue-up. The price seems out of line for one each. Anybody know of a deep discount on these or who has actually used them for speaker building?See link below, bottom of page, last item.
Jet jointer clamps

Subject: Re: Jet Jointer clamps: A lot cheaper here
