Hi guys!I m looking for a pari of high efficiency speakers for my Welbourne Laurels. I need bookshelfvers as my room is only 4x4m big. I listen mostly to Jazz and R&B, so I really want something that has great midrange and also bass too.Please advise. Your help is really appreciated!Regards,Choy

Subject: Studio Series one Pi and two Pi

I suggest a pair of Studio Series one Pi's or two Pi's. The two Pi's will give you a little better bass, but the 13' x 13' size room will give some bass boost, so the little one Pi's will be plenty and they sound great too.
