I just moved into an apartment earlier this month. About a week after we moved in, we had internet turned on, but the dumb tech turned it on in the wrong room, so we have internet in the bedroom when it should be in the living room. Now we need to run internet cable from the modem in the bedroom all the way to the Xbox One in the living room. We want to run it around the perimeter of each room so no one ever trips over it, so we're going to need a lot of it. Where's the best place to buy this stuff in bulk? Oh yeah, and I'm looking for cat 5e or cat 6.
