Hi guys, I've decided on building the "Thermio Seven Pi Pros" using a JBL 2226J per cabinet. That leaves me with two 2226J woofers to sell or trade. The woofers are brand new pulls from JBL woofer cabinets. Parts I'm interested in are Altec and JBL compression drivers and horns. I'm entertaining all offers at this time. Please email with questions, comments, and ideas. Thanks Wayne!Jerrod
