I have decided to go with 7Pi instead of 8Pi. Can I use Magnum instead of Omega woofers?Do you sell Magnums or should I get them from Parts Express?Can you send plans for the Magnum Pi7?Thanks in advance,Kevin

same cabinets as are used for the Omega, Kilomax or JBL Professional Series drivers.Note that

It seemed better slide this speaker into the Professonal Series line, since that is specifically

JBL 2241, 2242 or 2245 woofer and a JBL 2123 or 2120 midrange is now called a Professional

cart. We're an Eminence distributor and carry the full line of Eminence products. You'll find our prices very competitive, more so than any other online distributor I'm aware of. So be sure to check our prices before you buy.Wayne
