The Eminence Delta 15LF is suitable for 3.0ft3 to 20.0ft3 cabinets tuned to 25Hz. PiAlign suggests 4.0ft3, which makes a great alignment for good bass response in a small package. For a subwoofer, go larger than 10.0ft3 if possible.

The PiAligned cabinet of 4ft3 uses a 3" diameter port, 5" long. Larger boxes will require different ports.
