Just noticed a Pi4 using the B&C woofers. What is the differencebetween the Pi4 using the Kilomax and the B&C drivers.? Notice you specify both the "PL" version and "TX". Which would be better for DJ use? Are you selling the B&C's as well? Can you send me the plans for the B&C box. Thnx

How does the B&C horn midrange compare to the eminence delta and the JBL options in terms of sound quality for home use?

The B&C is a great midrange. But so are the Eminence and JBL drivers. I'd put the B&C in between them.
