I have to say that I am truly disappointed in the NFL this season. There sure have been a lot of problems.

The whole football issue with the Patriots was enough to really drive me crazy. The bad or missed calls all throughout the playoff games added to it of course. I never really listened to people before when they spouted off about the NFL being fixed. Honestly I don't know anymore.

I'm a Steelers fan and I know that we won 6 Super Bowl titles - fair and square with no one on the team cheating. I can't say the same for the Patriots and the rings they have won.

Anyone else having bad feelings about the NFL after this season?

I cannot wait to see what happens with the whole deflated balls mess and the Patriots. I hope that the coach is suspended and Brady too. They both knew they were cheating. I don't care what anyone says.

I think missed and bad calls happen every year. Yes, I get sick of them but it's nothing new. I don't think the NFL is fixed.

Good to see another Steelers fan here!

I was a little sad with the outcome of this Super Bowl. I was cheering hardcore for the Seahawks, and thought they had a good chance. Then they decided to throw a pass from 2 yards away from the endzone?!? WHAT?!? Just run the ball with Lynch, and they would have scored & probably win the game. Drove me crazy!!
