I peruse the Redbox that's within walking distance of our house but I'm not familiar with any of the titles in stock. I guess I don't know which new movies are good anymore because I never watch commercials, thus no previews. What are some good new movies you guys could recommend?

I really like horror and action movies so for me I would recommend The Visit or Hitman Agent 47. Those both are really good movies. What movie genre are you interested in?

I've heard that Martian (or The Martian, can't remember) is good. It stars Matt Damon as an astronaut who becomes stranded while terraforming Mars. I've also heard mixed reviews about the newest Star Wars episode.

I love comedies and a movie that I have been looking forward to is called 'The Night Before'. I'm a huge fan of Seth Rogan so pretty much anything he plays in I'll watch. I guess it didn't get very good ratings though.
