I purchased three of the Acoustic Elegance TD12S drivers a long time ago with the intent of doing a 3pi front soundstage build for a home theater.

Well, after a cross country move and life just getting in the way, they are still sitting in their shipping boxes and I no longer have a place for a set of 3pi.

Here's a link to them on AE's site and I have them listed on AVSForum as well.

I'm asking \$750 plus shipping from 85255 for the 3 of them.

They are new-in-box, never connected, tested, nor installed.
