I'm looking to build a 7Pi Pro and am only missing midranges. So I'm looking for a pair of JBL 2123 or 2012 10" midranges. Please email me if you have any for sale. Thanks, Ian

Ian, Have you considered getting a pair of Eminence Delta 10's from Wayne as a alternative?RON

That is my backup plan right now. From what I have heard the JBL midranges are particularly nice, so I thought I would try to find some used first. I had also considered Adrian Mack's Alpha 6 horn midrange, but I don't know how they compare. -Ian
