Subject: Found Some Resource for Active Crossover Design Posted by GarMan on Mon, 25 Oct 2004 18:45:20 GMT View Forum Message <> Reply to Message

There seems to be some interest in active crossovers lately, so I'd thought the attached link might be of interest to those looking to design and build their own opamp active crossover. Also available is a filter design program in Texas Instrument's website. Do a search for "FilterPro" in www.ti.com and it'll direct you to the download page.Gar.

Texas Intrum Active Filter Design Techniques
