Product support is excellent. When I had assembled the amps in the write-up, one of them didn't seem to want to dial-in as specified in the instructions. Eric Mainardi talked me through it via E-Mail, and even sent out an extra set of output FETs. Turned out the FETs weren't bad, so I got some extras at no charge. I'd say Selectronic goes above and beyond to support its customers. Couldn't ask for more than that.
