Subject: Re: that's a good one... Posted by Manualblock on Tue, 15 Feb 2005 12:23:21 GMT View Forum Message <> Reply to Message

I have an old copy of Valve Magazine from the early 90's that has a pre-amp design in it from Eric Barbour where he insists that Thoriated Triodes even though they are very microphonic make the best pre-amp tubes. He uses a Svetlana 572 with the filaments driven by computor switching power supplies. Lot of info in that article.Allison Kraus; what a voice on that girl.
