Ouch!--I go to this forum for info and insight on a good starter TT and the FIRST thing is somebody is bustin balls!!! Ouch--Hey! I am dedicated but really guys! Heart and soul but not my Squash Balls!--Now---on a lighter note! I am missing a footpad on the bottom of my Dual 1214 TT and have been leveling with a goat's nut and it just isn't the right fit---got a better size in mind??? Recommend a good starter table please---something I can get a cartridge that has some upgrade abilities ---I would rather have a basic table and then invest in cartridges to hear different sounds ---your thoughts gentlemen Jim
