The table is a Pioneer PL-540. As I say the wife got it for $2 and it seems in good condition. I haven't listened to any of my records since the late 80's for various reasons and of course the minute she walked in I was itching to get them cranked up again. Once I've saved up I hope to get a more modern table but until then I'm hoping this will do.Thanks, again, for your help,Colin
