The Gutters; it's so cheap to get done and the guy comes with a truck;all the gutter stock, the helpers; why do it yourself? Boom boom they in and they're out. I do most of the work on my house but those kind of things are just easier to pay for. Did you happen to notice the 515b question? I know you know Altec so I was wondering about those drivers. Thanks; J.R.
