To the question: Ya wanta keep from blowing up your $7000 moving coil cartridge this winter? Ya don't like the static shock you get every time you touch the cueing or headshell lift? The WB stores closed but you can still get all kinds of those slippers with cartoon characters on the front.But I will only guarantee results with Marvin.Sneakers, bare feet, workboots and top-siders all give me a nasty shock. With the Martians on, NADA!
