do you really plan on playing out (dj'ing)?going to a gig with a laptop is the equivalent of telling the audience to F themselves. Standard Club deck is the Technics 1200 mk2 (any 1200/1210 line will work) for pure scratching, I'd recommend the Vestax PDX deck, incredible pitch (+/- 50%) as opposed to the techs standard 8% (or 16% on the mk5g)
