Not sure if this is the right place to post this, but I finally have an audio sample from the CD I made three years ago.http://homepages.paradise.net.nz/sbk1/hurdygurdyman.mp3The is track 4, "Maggie Lauder," from about 16th century Scotland. Instruments used are the scottish smallpipes, bodhran and me trying to sing. Bodhran was added later, otherwise no effects were added.This recording will get your dogs and cats attention. Dave:)
Maggie Lauder
