Dropped in to North Dallas Audio open house at Russ Gates in McKinney--met my seller ther to p/u nice pair of voight pipes---Super nice guys---50/50 upscale audio to vintage rebuilds---must say that those pipes (built by Fred Thompson from Houston) really put on a nice show --cranked them on a pair of Wave 8's----I am rally blown with the bass too -----the 166's work quite nice in this pipe and we may want to invite these guys to a OKC meet if we can---for a bunch of crazy Texans they were quite nice -- Jim
