I have acquired a Denon DP-35 which has a Grado G-1 cartridge that has a broken stylus and a hum or noise in the right channel. What would be a good replacement for this TT? I realize it's not a TOTL but I just want a decent cartridge and have no clue these days. I haven't kept up with things since I bought a Shure V-15 type III many years ago. Thank you for your help. Mike
