Hi there,A friend if mine recently moved house and knowing my love for vinyl asked me if I wanted his grandads old record player, so as my own`s just broken down said yup. So I`m now the owner of a free Garrard 401 with A SME 3009, i must admit I did`nt kmow anything about them until searching on the web yesterday. So I have a few questions.. ...As this one`s only been used a couple of times in the seventies it does`nt have a plug on it, is it run of a seperate amp? if so what`s the best compatible amp to find? it just has a lead with two flat pins.Secondly I think it`s going to need oiling whats the best to use and how would I go about doing it.Thank`s
