Hey all you turntable buffs,I just purchased a Garrard model 440M from an estate sale. Can anyone share any experience they have had with this unit? Also, does anyone have an owner's and/or service manual for the unit they can scan in and e-mail to me or photocopy?I also have an older Panasonic unit, model RD-990 that needs some TLC. Anyone have an owner's and/or service manual for that?Thanks,Josh
