I just don’t think you should get a TT that old. The best were made 1980-90 timeframe.I find my best deals at record shops and craigslist. You have to look and feel before buying.I like direct drive. There are no idler wheels that get brittle with age.I like heavy platters. The heaver the better.I like standard cartridge headpieces. You can mount anything.I don’t like builtin preamps.I don’t like linear tracking.Anyway—hope some of this helps.Seehttp://dvautier.home.comcast.net/lp/lp.htmor maybehttp://dvautier.home.comcast.net/audio/audio.htmgood luck on your TT purchase
