Harbor Freight Tools in Dallas has an impressive digital scales on sale for \$12.99 in store or \$9.99 on line! <http://www.harborfreight.com/cpi/ctaf/displayitem.taf?Itemnumber=93543> I've tested one against my \$60 scales and it was gram for gram. Also against a friend's much more expensive scales. More of the same. The only caveat is mine measure to two decimal points as 1.95 and these do one. But then it drifted between 1.9 and 2.0 when weighing 1.95. Good price. Good backup if you have some already. 8:-) jim...
