Subject: Practically new Technics SL-1500? Posted by Zach on Tue, 30 Oct 2007 00:27:44 GMT View Forum Message <> Reply to Message

I have a Technics SL-1500 that I'm selling for my Grandmother. I saw that on ebay, remade dust covers are going for around 50 dollars. What is a good asking price for something like this? It's dust cover is in new condition, everything works perfectly there are no scratches are marks at all. It has the original manual and receipt as well. Am I getting my hopes up or could this be worth something?
