One of the things on my "to do" list is to make a list of exhibitors. But you're right, I'm up to my ears in stuff right now. I have made a little website and am just waiting for DNS propogation for it to go live. But it basically says the same info as what has been said here already. So far, I can think of you and Brines and me that are definite. Lots of others wrote to say they wanted to know when the date was set final, so now that it has, I'm waiting to hear back.
