I noticed a few of the things I'm most interested in hearing are now posted in the photos section - Pi 2 Tower, Brines Acoustics FT1600 MKII, Nelson Audio Image SE8, etc. The biggest downside to internet buying is that you often select a component or speaker based entirely on owners' and sellers' comments, which are sometimes positively biased. This will be a good opportunity to hear them for myself, which I'm looking forward to. So many speakers, so little time.
