---

I'm facing a dilemma. I've got quite a bit of gear here that I'd like to bring to GPAF, but I'm limited to what will fit in a Volvo 240 wagon, so I have to whittle things down. At the same time, I don't want to NOT bring something that a buncha folks want to hear, so . . . While I can't guarantee that I'll be able to honor all requests, I thought I'd toss out the question: WHAT Audio Note GEAR WOULD YOU LIKE TO HEAR AT GPAF? DAC's ? Pre-amps ? Power Amps ? Speakers ? Cable? Which models? What Levels or price ranges? As they (still) say in some voting precincts, VOTE EARLY, VOTE OFTEN !!
