Hi Wayne,1) Happy to. I was going that way anyhow, and what would a regional show be without Wild Bill?2) Between the integrated, the Kit Pre + Kit 4 and AX Two and AZ Two speakers, that range will be well represented, minus source. Our least expensive digital source is now $3,750, so that won't fit, but the entry analog rig is under $2k, so that works. 3) The Audio Note "statement" system only exists in Peter's living room, as far as I know; no one else has all the elements, some of which are not in production. (It's the $300,000 system we showed at Milan last Sept and at CES in Jan.) I don't have anything that exalted in residence. Wouldja settle for a lovely $30,000 system? This show is gonna be sooooooo coooooo.
