Bose 901's, with the equalizer engaged and properly placed in the room reproduce full orchestral and especially Opera recordings at a level few systems can equal! A Kenwood KD-650 with Ortofon catridge, Harmon Kardon 8xx something pre-amp and Bedini 25/25 produced the most stunning Turandot with Sutherland and Pavarotti, Mehta conducting.Nowadays this Infidel has other values but in 1978 that was something people came from miles around to here.NYAAAH!
