Just a reminder that the Iowa event is only one month away. Check the event listings at www.audioDIYcentral.com for updates. The event is developing into a day that will be filled with listening to many very cool new speaker designs, meeting new and old friends and acquaintances and a great place to share knowledge. Rick Craig and Dennis Murphy will be attending this year so here's your chance to talk to a couple of the "masters" in this hobby. I've also been working hard to come up with some cool awards and door prizes for the attendees. Make your plans to be there! See you there! Jim
